How to find the answers

The map overleaf is provided to help with orientation but the scale is not sufficient to navigate by. Once you've arrived at the location you will need to park up safely nearby and use the clues provided to help obtain the answer.

For each question we provide three pieces of information to help you locate the answers:

OS Grid Reference

An 8 figure grid reference - this can be used with the Ordnance Survey OL9 map for Exmoor and within the OS mobile app and some SatNavs.

What Three Words

What 3 Words provides a unique grid of 3m x 3m squares across the whole globe, providing a exclusive 3 word reference for each square helping you to accurately pinpoint any location. You can download the free **What 3 Words** app for Android or Apple devices, or you can search the 3 word references in a growing number of navigational apps. Find out more at www.what3words.com.

Postcode

We have also provided a postcode but please use this with caution - it will help you navigate to the vicinity of the area but may not direct you to the exact location. Postcodes, especially outside of settlements can cover a large dispersed area. Most navigation devices will take you to the centre of a post code area which may be some way from the answer location and could be an area without public access - please be warned!

Drive carefully, good luck, have fun and enjoy!

Example question:

Brendon Common (on a remote tree):

 SS7540 4588  dugouts.perfectly.clubbing  EX34 0DH

In loving memory of Dick and Lorna who?

The answer is **'French'** and is found at the location by a plaque fixed to the bottom of the tree.

If you get stuck you can always ask someone if they can point you in the right direction.
